FOR PARENTS AND FAMILIES · JAYDYNN'S LIGHT

ONE PILL CAN KILL.

Our daughter Jaydynn Hogan was 16 when one counterfeit pill, bought through social media, took her life. Please read this sheet tonight, then talk with your child.

WHAT IS FENTANYL?

- A synthetic opioid about **100 times stronger than morphine**.
- **2 milligrams**, about the size of a few grains of salt, can kill an adult.
- Drug networks press it into **fake pills** made to look like OxyContin, Percocet, Xanax or Adderall, and mix it into cocaine and other drugs.
- You **cannot tell by looking**. Fake pills are sold on Snapchat, Instagram, TikTok and other apps and delivered within minutes.

TALK WITH YOUR CHILD TONIGHT

> **"You cannot buy a real medicine on social media. Not one."**

- The only safe pill is one a pharmacist hands you.
- Know the apps they use and who they talk to. Apps that delete messages (Snapchat, Telegram) make dealing easy.
- Learn the emoji dealers use for drugs. Check the phone, even if they hate it.
- Lock up or throw away old prescription pills.

1,819
Coloradans died of overdoses in 2025, up from 1,640 the year before.

29%
of fentanyl pills the DEA tested in 2025 held a potentially lethal dose.

6.7M
fentanyl pills seized in Colorado in 2025.

Sources: CDC provisional data (Oct 2026); DEA lab testing, FY2025; DEA.

SIGNS OF AN OVERDOSE

- Won't wake up or respond
- Slow, shallow or stopped breathing
- Snoring, gurgling or choking sounds
- Blue or gray lips and fingertips
- Tiny "pinpoint" pupils
- Limp body, cold or clammy skin

WHAT TO DO

1. **Call 911.** Say the person is not breathing or won't wake up.
2. **Give naloxone (Narcan).** One spray in one nostril. No response in 2–3 minutes? Give a second dose.
3. **Support breathing.** Follow the dispatcher, or roll them onto their side.
4. **Stay until help arrives.** Naloxone can wear off before fentanyl does.

YOU ARE PROTECTED FOR CALLING

Colorado's Good Samaritan law (C.R.S. 18-1-711) protects the person who calls 911 in good faith and the person who overdosed from prosecution for certain drug offenses, if you stay and cooperate. Giving naloxone in good faith is protected too.

GET NALOXONE FREE

Sold over the counter at pharmacies. Free by mail for Weld and Larimer County residents (North Colorado Health Alliance), free from kiosks across Northern Colorado, and mapped statewide at Save a Life Colorado. Keep it at home, in the car and in the backpack.

NUMBERS TO KEEP

911	Overdose emergency
1-800-222-1222	Poison Control, 24/7
988	Suicide & Crisis Lifeline, call or text
1-800-662-4357	SAMHSA treatment referrals, English and Spanish
